Dear Sirs

**Re: Decision Ref: 2007/5335/P, 17 Murray Street, Camden, London, NW1 9RE**

Further to your letter dated the 6<sup>th</sup> March 2013 regarding making an invalid planning application to discharge the planning conditions for approved consent No 2007/5335/P I have now made the correct application and enclose this letter to support the application as requested.

I can confirm the drawings I sent with the original application on the 21/02/2013 are the approved drawings.

I am now clarifying the position regarding discharging the various conditions:

*Conditional 3 (sections through elevation, details of balustrades and detail of gates and railings)*

When discharging condition 2 the materials samples inspected on site got mixed up with discharging condition 3 refer to Amanda Peck email dated 23/05/2011 and we have now sent drawings and photographs showing building now completed which as agreed should be sufficient to deal with this condition.

*Conditional 6 (Crime Prevention)*

All the conditions that were agreed with Camden Police have been implemented and since completion of these works have now been inspected by Camden Police, we have now sent to you copy of the SBD certificate issued by Camden Police which confirms we have successfully achieved compliance with Secure by Design.

*Conditional 7 (Ground Investigation)*

The Ground Investigation Report was first sent to you in May 2011 and confirmed receive by Amanda Peck requesting an electronic copy, which we tried to email to you on the 21/02/13 but was too large for the Planning Portal website and we sent you another paper copy on the 22/02/13, but will try to email you another copy with this letter.

*Conditional 8 (Sound Insulation)*

The Sound Insulation report has been sent to you on the 21/02/2013, please refer why the report has had to be submitted again as reasons in email from Amanda Peck dated 26/05/2011.

*Conditional 11 (Plane Tree Retention)*

The Tree Survey and Protection report has been sent to you on the 21/02/2013 although this report was first submitted in 2007 and Kevin Fisher attended various site meetings and confirmed works was completed in line with report recommendations it seem it was not formally discharged, we now formally submit to discharge this condition.

I hope this now clarifies all outstanding issue regarding discharging the planning conditions.

Yours Faithfully
