Dear Sirs

Design and Access Statement

The changes that are proposed in this application are essentially to reconstruct the front elevation at second floor level to bring it into line with the properties on either side. As near as possible it is our intention to reproduce the same spacing of windows and appearance of the façade and to regularise that side of the Mews at its lower end.

Access to the property will not be affected as the façade at ground floor level is unaltered.

I trust that the above meets with your requirements. If anything further is required please do not hesitate to contact me.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Peter Barton', with a long horizontal flourish extending to the right.
