Application for tree works: works to trees subject to a tree preservation order (TPO) and/or notification of proposed works to trees in a conservation area.

Town and Country Planning Act 1990

Publication of planning applications on planning authority websites

Please note that with the exception of applicant contact details, the information provided on this application form and in supporting documents may be published on the authority's website.

If you have provided any other information as part of your application which falls within the definition of personal data under the Data Protection Act which you do not wish to be published on the authority's website, please contact the authority's planning department.

Please complete using block capitals and black ink.

You must use this form if you are applying for work to trees protected by a tree preservation order (TPO). (You may also use it to give notice of works to trees in a conservation area).

It is important that you read the accompanying guidance notes before filling in the form. Without the correct information, your application / notice cannot proceed.

Plan and reasons:

Re Site - 5 Grove Terrace, London NW5 1PH

6th March 2013(15916)

T1 - Bay x 1 - remove two smallest stems and reduce crown by 1.5m on height and 1.5m on spread

Reasons: too close to building and overhanging excessively

T2 - Cherry x 1 - remove stem nearest garage and reduce remaining stem by 1.5-2m on lateral growth

Reasons: outgrowing a restricted location

T3 - Evergreen Oak x 1 - lift to clear summerhouse by 1m Reasons: impacting upon a valued structure

T4 - Evergreen Oak x 1 - reduce by 2m on apical growth and 2m on width – prune out 1 No upright stem

Reasons: growing too close to a wall of some visual merit which will suffer physical damage should the tree be allowed to grow too large

T5 - Yew x 1 - prune to create a hemispherical shape Reasons: aesthetic desire

T6 - Lawsons cypress x 2 (small) - fell and grind out stumps of same Reasons: insignificant trees of poor form which are detracting from adjacent superior trees

T7 - Evergreen Oak x 1 - fell to ground level and treat against re-growth Reasons: too close to adjacent wall which it will damage should it be allowed to grow on

T8 - Hazel x 1 - fell and grind out stump of same Reasons: unwanted tree, crowding out adjacent maple

Hammamelis x 1 - prune to clear summerhouse Reasons: to clear summerhouse

T9 - Holly x 1 - fell and grind out stump of same

Reasons: self seeded unwanted tree

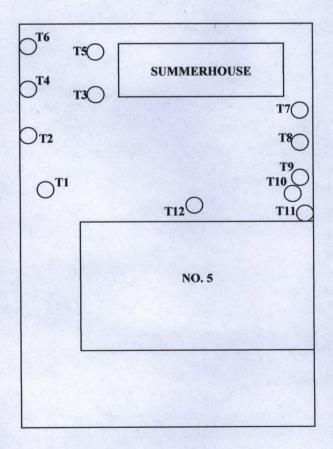

T10 - Red Horse Chestnut x 1 - fell and grind out stump Reasons: this tree is affected by bleeding canker and is structurally compromised by stem and scaffold branch decay such that tree failure in the short to medium term is inevitable.

T11 - Yew x 1 - reduce heavily in width and lightly in height Reasons: growing too large and in close proximity to the building and boundary wall

T12 - Bay x 1 - grub out

Reasons: unwanted tree in an inappropriate location (maybe below 75mm diameter and therefore an exception
