The Cttee had a detailed presentation on site and voiced concerns about the 2nd floor projecting glass 'box'. It is therefore disturbed that this intrusive feature is included in this application. It would disturb the composition of the square facade of an already imposing building. This would further increase its visual dominance and should be omitted as damaging the overall character and appearance of Red Lion Square for no good reason. It noted that the oversized street numbers are subject of a separate app but hoped they would be down scaled.
