5 Huson Close

Graphite grey colour frame to Upvc sealed double glazed doors, to match, Bi fold type

GF

2460

This architectural elevation drawing illustrates a building facade with a focus on human-scale proportions. A dashed red line, labeled "45 Degree, BRE guideline", originates from the top left and extends diagonally across the facade. A vertical dimension line on the left side indicates a height of 3000mm. The facade features a series of windows and a central entrance area. The windows are arranged in a grid pattern, with some windows having multiple panes. The entrance area is located on the right side of the facade and includes a set of stairs leading up to a platform. The drawing uses various line styles and patterns to represent different materials and structural elements. A horizontal dimension line at the bottom indicates a width of 5740mm. The overall style is technical and precise, typical of architectural drawings.
