

A1-size drawing
1:50

NOTES:

The accuracy and content of our scales are dependent on the original specification and EDI should be consulted before use of our scales or use in CAD form.

Where underground services are shown, all reasonable care has been taken within the spirit of the original specification and requirement. Before use of this information the user should consult EDI and satisfy themselves of the completeness and accuracy of such data before undertaking any works. Due to the nature of the data, no liability can be accepted for the accuracy of the data or the selection of any information. No guarantee can be given that all services have been recorded.

All reasonable care has been taken in the survey data represented on this drawing but any discrepancies must be reported to EDI immediately. Our aim is to produce the best possible results from the data specified.

Comments are not to be used for any other purpose.

All levels and co-ordinates are related to the datums described. Levels shown at kerbs are channel level unless stated. The horizontal control of this survey is arbitrary. The vertical control of this survey is based on OS datums as translated from GPS coordinates using the OSGM02 transformation as supplied by the Ordnance Survey. The horizontal and vertical datums in the area which should be disregarded, and levels should be taken from EDI survey stations.

DATUM 78.00m A.O.D
