

Pets at home, 86 Camden Road, Camden, London NW1 9EX.

Proposed signage schedule for application for advertisement consent.
In conjunction with drawing PAH-CAMDEN-SIGN-SCH-TWO-01 Revision A.

Item A - Front elevation - individual letters on non illuminated background specification .

1 no non illuminated folded aluminium panel approx
19300mm x 1500mm with folded returns all stove enamelled to dark green RAL 6002 and fitted with a set of individual letters 'pets at home', approx 1050mm o/a ascender to descender, fabricated in a rim and return style from descaled stainless steel and stove enamelled to white and dark green respectively. Letter faces to be translucent from opal acrylic and Holly green for the letter faces only to illuminate from internal white LED set within the letters.

We have assumed that installation will be direct to a prepared shopfront fascia by others.

Item B - Side elevation - individual letters on non illuminated background specification - 1 no non illuminated folded aluminium panel approx 14000mm x 1500mm with folded returns all stove enamelled to dark green RAL 6002 and fitted with a set of individual letters 'pets at home', approx 1050mm o/a ascender to descender, fabricated in a rim and return style from descaled stainless steel and stove enamelled to white and dark green respectively. Letter faces to be translucent from opal acrylic and Holly green for the letter faces only to illuminate from internal white LED set within the letters.

We have assumed that installation will be direct to a prepared shopfront fascia by others.

Item C - WINDOW GRAPHICS - To include for an in store services menu to first window adjacent to entrance and then 4 no animal scenes all digitally printed vinyl graphics installed externally to 11 no glazing windows to ground floor - we have assumed that the backs of the windows will not be seen internally as the racking will be insitu.

Item D - Installation & supply of 4no 60" x 40" non-illuminated poster frames - new style Signwaves posterframes.

Item E - DELIVERIES PANEL - to be from 5mm thick white foamex, 1000 x 555mm.
