Mr Gareth Gerner  
ArcDesign

Re: Development at 24-28 Warner Street.

Dear Gareth

We wish to confirm that we have accepted a brief from Cube Construction Ltd to act as Temporary works design engineer in addition to our normal duties as consulting structural engineer for the above project. To this end our duties will involve coordination of the temporary works installation on site, review of any subcontractor proposals to ensure compliance with the global structural principles, and monitoring of the structural works on site.

Yours sincerely,

---

Vincent Barrett  
BSc, MSc, DipStructE, DIC, MIEI, MIStructE, RConsEI, CEng
