Expose existing structure for structural engineer's review before removal of steel. Do not remove any structural steel until structural engineer has carried out his assessment and agreed to do so!

Constructions to be removed Read in connection with L210, L211, L212

- Remove existing false ceiling
- Remove fixtures and furniture
- Remove concrete and glass-concrete floor panels; remove steel that supports them when approved by structural engineer
- Remove wall linings including tiling, metal sheets, plasterboard and other boards. Keep thin plasters if they are undamaged.
- Refer to services engineer's drawings for scope of strip out of the building services.
