Application for tree works: works to trees subject to a tree preservation order (TPO) and/or notification of proposed works to trees in a conservation area.

Town and Country Planning Act 1990

You can complete and submit this form electronically via the Planning Portal by visiting www.planningportal.gov.uk/apply

Publication of applications on planning authority websites

Please note that the information provided on this application form and in supporting documents may be published on the Authority's website. If you require any further clarification, please contact the Authority's planning department.

Please complete using block capitals and black ink.

You must use this form if you are applying for work to trees protected by a tree preservation order (TPO). (You may also use it to give notice of works to trees in a conservation area).

It is important that you read the accompanying guidance notes before filling in the form. Without the correct information, your application / notice cannot proceed.

1. Applicant Name and Address		2. Agent Name and Address		
Title:	MA First name: GANETI1	Title: First name:

5. What Are You Applying For?	6. Tree Preservation Order Details					
	If you know which TPO protects the tree(s), enter its title or numbe below.					
Are you seeking consent for works to tree(s) Yes No subject to a TPO?	Delow.					
Are you wishing to carry out works to tree(s)						
in a conservation area?						
7. Identification Of Tree(s) And Description Of Works						
Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if						
necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on						
your sketch plan (see guidance notes).						
Please provide the following information below: tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for						
planting replacement trees (including quantity, species, position and E.g. Oak (T3) - fell because of excessive shading and low amenity value. R	size) or reasons for not wanting to replant.

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). To works to trees covered by a TPO Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details) 1. Condition of the tree(s) - e.g. it is diseased or you have fears that it might break or fall: If YES, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert. 2. Alleged damage to property - e.g. subsidence or damage to drains or drives. If YES, you are required to provide for: Subsidence A report by an engineer or surveyor, to include a description of damage, vegetation, monitoring data, soil, roots and repair proposals. Also a report from an arboriculturist to support the tree work proposals. Other structural damage (e.g. drains, walls and hard surfaces) Written technical evidence from an appropriate expert, including description of damage and possible solutions. Occuments and plans (for any tree) Te you providing separate information (e.g. an additional schedule of work for Question 7)? Yes No YES, please provide the reference numbers of plans, documents, professional reports, photographs etc in support of your application they are being provided separately from this form, please detail how they are being submitted.	7. Identification Of Tree(s) And Description Of Works continued						
8. Trees - Additional Information Additional information may be attached to electronic communications or provided separately in paper format. For all trees 1. Sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer. For oworks to trees covered by a TPO. Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application nust be accompanied by the necessary evidence to support your proposals. Amanda Steppenbeck Direct Dial: 08702 416 180 ext 227

E-mail:

Amanda.Steppenbeck@marishalthompson.co.uk

Dear Miss London,

Letter sent by recorded delivery, please do not ignore this letter it is important

We are appointed by Royal and Sun Alliance to act on their behalf to resolve a problem involving damage to the property at 11 Torriano Cottages, Leighton Road, Kentish Town, London, NW5 2TA. We enclose an Arboricultural Report which our Client relies on as evidence to suggest that the damage at the property is caused by subsidence which may be made worse in the future by the potential actions of the vegetation sited within your boundary. Please note that vegetation within the boundary of your property is not implicated in the current damage but has the potential to influence the property in the future should the recommended action not be taken.

This vegetation has been identified and you will see that the report details the recommended vegetation management as:

Prunus - Future Risk - Remove and treat stump to inhibit regrowth. T1

T3 Pear – Future risk – Remove and treat stump to inhibit regrowth.

Acer – Future risk – Remove and treat stump to inhibit regrowth **T4**

This letter can be produced as evidence that you were told about the risk of future damage being caused by this vegetation and advised to take the recommended action.

We are aware that your property is situated within a conservation area and as such the relevant notification will be required to the council prior to the commencement of any works. We are happy to assist with the notification to the council should you require, please contact us for further information.

If you choose not to control your vegetation as detailed within the Arboricultural Report we recommend that you advise your own Insurer as this may affect your position on liability for compensation in the future.

If you have any queries about this letter please do not hesitate to contact Amanda Steppenbeck on the above number who will be happy to discuss any queries you may have.

Yours sincerely

Amanda Steppenbeck Mitigation Department Marishal Thompson & Co.
