Fao Mr A Malcolm: Planning Officer

10th September 2012

Dear Mr Malcolm

Thornhaugh Mews Institute of Education, 20 Bedford Way, London WC1H 0AL
Camden Ref 2008/1237/P: Discharge of Condition 4: Refuse Storage

With regard to the above condition, we confirm that the Institute of Education has advised the following:

As the extension would extend our existing Bedford Way building the current refuse storage area on the service road would be used. On the service road currently the Institute has a designated area for the storage of both waste to energy and recycled materials. This consists of a number of 1100 litre wheelie bins, which are emptied daily in regards to waste to energy and twice per week for recycled waste. In regards to general day-to-day waste the Institute does not send any waste to landfill.

The following drawing shows location of refuse storage on the service road that would be available to provide for the needs of the extension.

Architect's drawing numbered:
06050 / B012 rev A

Yours sincerely,

Nicholas Hufton
