#### **SPECIES**

#### **WORK PROPOSED**

Rear

1.Ash (Fraxinus excelsior)

Mature tree. This tree has a large, decaying cavity on the main stem, it also has an included main union.

Because of the close proximity of the neighbouring property, all of the weight of the crown is putting stress

on the main union and decayed stem.

Fell to ground level by sectional takedown.

Please quote our reference number on all correspondence.

Yours sincerely,

Steve Hawkins, RFS Arb

Application for tree works: works to trees subject to a tree preservation order (TPO) and/or notification of proposed works to trees in a conservation area.

## **Town and Country Planning Act 1990**

### Publication of planning applications on planning authority websites

Please note that with the exception of applicant contact details, the information provided on this application form and in supporting documents may be published on the authority's website.

If you have provided any other information as part of your application which falls within the definition of personal data under the Data Protection Act which you do not wish to be published on the authority's website, please contact the authority's planning department.

Please complete using block capitals and black ink.

You must use this form if you are applying for work to trees protected by a tree preservation order (TPO). (You may also use it to give notice of works to trees in a conservation area).

It is important that you read the accompanying guidance notes before filling in the form. Without the correct information, your application / notice cannot proceed.
