

FRONT ELEVATION
8A REGENT'S PARK RD

WINDOW TO
BE REPLACED WITH
HIGH QUALITY ECO-
FRIENDLY DOUBLE
GLAZE

For the avoidance of doubt, our intent is to replace the existing single-glazed window with a double-glazed window that +/- 2mm is exactly the same as the current windows except that the new window is to be double glazed and eco-friendly. Our absolute priority is to retain the character and appearance of the property as it is seen in the above picture.
