

Green Roof Layers:

P7. Polyethene sheet

P8. Drainage Mat

P9. Water Retention Fleece

P10. Sedum Matting

Creating a Sedum Green Roof:

P11. Water Proof Roof

P12. 'Ready to Lay' 500mm x 500mm Sedum Tiles

P13. Lay Sedum Tiles, side by side

P14. Finished Roof

P15. The Sedum Tiles quickly knit together to provide a beautiful, uninterrupted sedum turf. The colours will change throughout the year providing a truly living roof, blending perfectly with the vegetation around it, helping the building disappear into its natural surroundings
