

Strip foundation perpendicular to access way

Strip foundation parallel to access way

Section A-A

Plan of foundation showing proposed reinforcement layout

Notes

1. Contractor is responsible for all temporary works.
2. All dimensions are to be confirmed on site prior to works commencing.
3. Access way is to remain un-obstructed at all times.
4. Tree stump/roots to be removed & disposed of prior to works commencing.
5. Concrete strength to be min. C35.
6. Maximum aggregate size 20mm.
7. Cover to reinforcement min. 35mm.
8. Minimum laps for H16 bars are 650mm, although laps have been increased to allow for foundation size to alter. JP&P to be advised of any change.
9. Refer to 12397 C/02-01 for bending schedule.
