

2. While this drawing can be used as a base drawing for construction purposes, it is VERY IMPORTANT that all dimensions are checked carefully before any work

commences or any materials are ordered.

3. This drawing can be used as part of a planning application, although your planning officer may ask for more specific information about some aspects of the design. Ask your architect for more information on planning applications.

necessarily exhaustive and the whole scope of proposed 

necessary for a full plans building regulations application.

necessarily exhaustive and the whole scope of proposed works should be reviewed.

5. Unless other arrangements have been specifically made, your building contractor should serve a Building Notice, as and where applicable, to your local authority to satisfy the requirements of the Building Regulations. Your building contractor should also liaise with the Building Control Officer regarding routine inspections of the work.

While this drawing can be used as a base drawing for construction purposes, your building contractor may require more information. It is therefore important to discuss, with your architect & builder together, where more detail would be appropriate.

1. This drawing has been based upon a measured survey drawing by others. As a result, the precision of the dimensions indicated is dependent upon the information as possible these instances have been indicated, this is not As it stands this drawing does not include all of the detail

All dimensions are in millimetres All dimensions to be checked on site © Architect Your Home
