

- 2. While this drawing can be used as a base drawing for construction purposes, it is VERY IMPORTANT that all dimensions are checked carefully before any work
- commences or any materials are ordered.

 3. This drawing can be used as part of a planning application, although your planning officer may ask for more specific information about some aspects of the design. Ask your architect for more information on planning applications.
- 1. This drawing has been based upon a measured survey drawing by others. As a result, the precision of the dimensions indicated is dependent upon the information supplied.

 4. Where applicable, a suitable Structural Engineer and/or a Party Wall Surveyor should be consulted. Although as far illustrate the general arrangement of the project proposals. As it stands this drawing does not include all of the detail necessarily exhaustive and the whole scope of proposed necessarily exhaustive and the whole s
 - works should be reviewed.

 5. Unless other arrangements have been specifically made, your building contractor should serve a Building satisfy the requirements of the Building Regulations. Your building contractor should also liaise with the Building Control Officer regarding routine inspections of the work.

5. Unless other arrangements have been specifically made, your building contractor should serve a Building Notice, as and where applicable, to your local authority to work information. It is therefore important to discuss, with your architect & builder together, where more detail would be appropriate.
