

Design risk assessments are carried out throughout the design stage of the project. In accordance with the company procedures and best practice of the industry, where reasonably possible, all areas of risk applicable to the design have been identified and their consequences mitigated or noted for action. Please note that specific risks may remain and are for the client's consideration when developing their drawings or extending work shown thereon. Note that general risks of which a competent designer or contractor should be aware are not included. The drawing is to be read in conjunction with the title block and all related documents created in accordance with current Construction (Design and Management) Regulations and all subsequent amendments.
