A-11 Cycle Rack

Flexible design and a great economical solution where mass parking is a requirement.

Manufactured from robust angle iron, the A-11 alternates wheel positioning high and low to make parking easier, plus a huge number of options and variants.

A-11 standard cycle rack:

The standard A-11 rack for racing bikes is available in two variants, with spacing at either 300 or 375 mm centres. Available as a single and double sided version.

A-11MB mountain bike rack:

The 'MB' version has slightly wider tube spacings to accommodate the larger tyres on mountain bikes. Additionally the spacing of the cycle places is increased to 400 mm, to reduce the likelihood of handle bars clashing. Available as a single or double sided version.

- A-11 cycle rack, 300 mm centres:

- 00.004.030 - Four spaces, length: 1200 mm.
- 00.005.030 - Five spaces, length: 1500 mm.
- 00.006.030 - Six spaces, length: 1800 mm.
- 00.007.030 - Seven spaces, length: 2100 mm.
- 00.008.030 - Eight spaces, length: 2400 mm.

- A-11MB cycle rack, 400 mm centres:

- 00.003.240 - Three spaces, length: 1200 mm.
- 00.004.240 - Four spaces, length: 1200 mm.
- 00.005.240 - Five spaces, length: 2000 mm.
- 00.006.240 - Six spaces, length: 2400 mm.

- A11B double sided, 300 mm centres:

- 00.030.015 - Ten spaces, length: 1500 mm.
- 00.032.015 - Twelve spaces, length: 1800 mm.
- 00.033.015 - Thirteen spaces, length: 1950 mm.
- 00.035.015 - Fifteen spaces, length: 2250 mm.

- A-11B-MB double sided, 400 mm centres:

- 00.026.220 - Six spaces, length: 1200 mm.
- 00.028.220 - Eight spaces, length: 1600 mm.
- 00.030.220 - Ten spaces, length: 2000 mm.
- 00.032.220 - Twelve spaces, length: 2400 mm.

- A-11 cycle rack, 375 mm centres:

- 00.004.637 - Four spaces, length: 1500 mm.
- 00.006.637 - Six spaces, length: 2250 mm.
- 00.008.637 - Eight spaces, length: 3000 mm.

Accessories:

- Fastening post:

Fitted in the same way as the add-on support. Equipped with a 12 mm solid loop to secure the bicycle lock. Manufactured using 40 x 40 mm tubing which is hot-dip galvanized.

Add on support, only suitable for racks with even number of spaces:

The protruding section means the cyclist can remain behind the cycle.

- Straight:

Manufactured using 47.5 mm tubing and mounted on an angle iron or the rack with bolts. The protruding section means the cyclist can remain behind the cycle.

- Angled:

Manufactured using 42.4 x 3.25 mm tubing and mounted on the angle iron or the rack with bolts.
