Design and Access Statement for:

32-33 Great Queen Street, London, WC2B 5AA

The proposal to create a new internal door opening between number 32 and 33 Great Queen Street on the first floor will increase the internal accessibility on the first floor. This will improve access to both. The newly created door opening will not impact on the accessibility or design of the two properties or surrounding area. This proposed door opening will only benefit the two properties and the alteration will comply with current Building Regulations and all necessary modifications to the fire strategy system.
