Dear Mr Little

I am writing with reference to our phone conversation about a leaning Lombardy Poplar with decay at the base.

The tree is the last in a row of poplars covered in ivy backing onto Belsize Lane (coming from Fitzjohn's Ave). It overhangs an open car port with cars parked

underneath. I'd like remove 3 or 4 side branches closest to that neighbour in order to reduce the weight and thus prevent any damage should the tree collapse.

The name of the owner is Michael Heaton and he can be contacted on 020 7794 0893.

Kind regards

Michael Gallus
