

Envirocheck[®] Report:

BGS Boreholes Datasheet

Order Details:

Order Number:

33890976_1_1

Customer Reference:

GONDAR

National Grid Reference:

524830, 185310

Slice:

A

Site Area (Ha):

0.01

Borehole Search Buffer (m):

1000

Site Details:

Site at 524750, 185360

Client Details:

Mr P Radmall
Peter Radmall Associates
Firbank
Ashdown Road
Forest Row
East Sussex
RH18 5BW

Prepared For:

Gondar Gardens

| Data Type | Page Number | On Site | 0 to 250m | 251 to 500m | 501 to 1000m |
|------------------|--------------------|----------------|------------------|--------------------|---------------------|
| BGS Boreholes | pg 1 | None | None | 2 | 18 |

Introduction

The Environment Act 1995 has made site sensitivity a key issue, as the legislation pays as much attention to the pathways by which contamination could spread, and to the vulnerable targets of contamination, as it does the potential sources of contamination.

For this reason, Landmark's Site Sensitivity maps and Datasheet(s) place great emphasis on statutory data provided by the Environment Agency and the Scottish Environment Protection Agency; it also incorporates data from Natural England (and the Scottish and Welsh equivalents) and Local Authorities; and highlights hydrogeological features required by environmental and geotechnical consultants. It does not include any information concerning past uses of land. The datasheet is produced by querying the Landmark database to a distance defined by the client from a site boundary provided by the client.

In the attached datasheet the National Grid References (NGRs) are rounded to the nearest 10m in accordance with Landmark's agreements with a number of Data Suppliers.
