The copyright in this drawing is vested in Smith Lam Architects and no licence or assignment of any kind has been, or is granted to any third party whether by provision of copies or originals of the drawing or otherwise unless otherwise agreed in writing.  
DO NOT SCALE FROM THIS DRAWING.  
The contractor shall check and verify all dimensions on site and report any discrepancies in writing to Smith Lam Architects before proceeding with work.  
FOR ELECTRONIC DATA ISSUE  
Electronic data drawings are issued as "read only" and should not be interrogated for measurement. All dimensions and levels should be read, only from these values stated in text, on the drawing.  
AREA MEASUREMENT  
The areas are approximate and can only be verified by a detailed dimensional survey of the completed building and decisions to be made on the basis of these measurements, whether as to project liability, pricing, lease agreements or the like. Should include the advance of the structure and structure elements in the design development and building procedure. Figures relate to the Built area of the building at the current state of the design and using the Gross External Area (GEA) Floor to Floor Area (FFA) Method and not the Net Internal Area (NIA) Method of measurement from the Code of Measuring Practice, BS 5609 (RCS Code of Practice). All areas are subject to Town Planning and Conservation Area Consents, and Section 78 to 79A.
