 The copyright in this drawing is vested in smith lam architects and no licence or assignment of any kind has been, or is, granted to any third party whether by provision of copies or originals of the drawings or otherwise unless otherwise agreed in writing.  
 DO NOT SCALE FROM THIS DRAWING.  
 The contractor shall check and verify all dimensions on site and report any discrepancies in writing to smith lam architects before proceeding with work.  
 FOR ELECTRONIC DATA ISSUE  
 Electronic data / drawings are issued as "read only" and should not be interrogated for measurement. All dimensions and levels should be read, only from those values stated in text, on the drawing.  
 AREA MEASUREMENT  
 The areas are approximations and can only be verified by a detailed dimensional survey of the completed building. Any decisions to be made on the basis of these predictions, whether as to project viability, procurement, space requirements or the like, should include due allowance for the tolerance of the measurements in the survey and throughout the building process. Figures relate to the likely areas of the building at the current state of the design and using the Current External Area (CEA) / Gross External Area (GEA) / Net Internal Area (NIA) method of measurement from the Code of Measuring Practice, 6th Edition (RICS Code of Practice). All areas are subject to Town Planning and Conservation Area Consents, and related Rights to Light enquiries.
