Permeable Block Paving Drivesett[®] Argent[®] Priora

36kg CO₂
per m²

DRIVEWAYS

SUDS

Contemporary Drivesett Argent Priora Permeable Paving, a Sustainable Urban Drainage System (SUDS) for driveways

- A contemporary Sustainable Urban Drainage System with an attractive granite look
- This permeable paving system features the Marshalls unique patented 'Priora' nib design which allows surface water to pass between blocks into a specially calculated sub-base without compromising the structural performance of the driveway
- Drains water away safely in heavy rainfall without becoming a burden to the local drainage system
- Can help preserve the local water table by rehydrating ground prone to droughts
- If installed with the correct sub-base this permeable paving solution can be used in a front garden without obtaining planning permission
- Drivesett Argent Priora blocks are designed to be laid in a random course laying pattern (supplied in pack). Random ratio per square metre; 3 small, 12 medium, 16 large
- Available in the 3 popular Drivesett Argent colours; Graphite, Dark and Light to match a wide variety of property types
- Supplied in mixed packs of 3 sizes meaning less wastage and potential cost savings
- For co-ordinating kerbs and edgings see p.152-155

IMPORTANT Installation Note

The Priora System should not be attempted by the DIY enthusiast or untrained installer. It requires the careful calculation of a soil permeability test and appropriate use of specially graded sub-base aggregates.*

Should an installer wish to undertake training for the installation of this product please call the Marshalls Helpline on 0845 820 5000 for further information.

Visit the Marshalls website to find your nearest Marshalls Register Installers trained to install Priora Systems or call 0845 820 5000

See Conditions and Guidelines for use on page 168
