

- Notes:-
1. This drawing represents design intent but the final built layout is subject to coordination by the architect.
 2. This drawing is to be read in conjunction with all Electrical, Mechanical, Public Health, Structural and Architectural drawings.
 3. Refer to schematics for ductwork sizes, pipework sizes and volume flow rates.
 4. All ductwork terminating in dampers or open ends must be finished with 60% free area insect mesh with maximum hole size 1mm unless otherwise specified.
 5. Dust filter unit containing a readily removable filter cartridge. Cartridge to hold a cut piece of G4 filter media over a cut piece of F7 filter media. Cartridge to be suitably robust and simple to operate. Design to be developed by contractor with specialist manufacturer and Architect.
