

Addendum Note For Supporting Documentation

1-11 EUSTON ROAD, LONDON

Note:- The following supporting consultant reports were undertaken in respect of a previous version of the application proposals which included Community Care Units within the scheme. This element has been replaced by the introduction of the proposed residential component. It is considered that the content and conclusions of the relevant supporting documents remain valid and do not require any further modification in respect of the current proposals.

1. Transport Statement, (with Travel Plan Statement, Construction Logistics Plan and Delivery & Services Plan), prepared by BWB Consulting;
2. Justification for Demolition and Replacement, prepared by Conservation PD;
3. Sunlight and Daylight Assessment, prepared by Waterslade;
4. Archaeological Assessment, prepared by Museum of London Archaeology Service;
5. Noise Assessment, prepared by Bickerdike Allen Partners;
