

Dear David

As per the planning permission granted in March (application number 2011/0387/P) I am enclosing, for your approval, the details of the sedum green roofs on the first floor half width element of the extension and the kitchen roof section below it. The intention is to have sedum on the lower roof and wildflower mix above.

Please do not hesitate to contact me if you have any queries or comments regarding any of the attached. The builders are progressing with the job so I would be grateful if you would let me know if you are happy for them to proceed based on the attached as soon as possible.

Many thanks

Charlotte
