New BGS Aquifer Designation Maps

From 1st April 2010 new aquifer designations replace the old system of Aquifer. This new system is in line with our Groundwater Protection Policy (WFD) and is based on British Geological Survey mapping.

Groundwater Source Protection Zones data:

The Source Protection Zones are not displayed at scales greater than 1:50,000 as the data was only modelled to this level and is not accurate past this. The boundaries.

Groundwater Source Protection Zones

Groundwater provides a third of our drinking water. We ensure that you have access to clean water through our Source Protection Zones. These zones help to monitor the risk of contamination in the area.
