

Dear Sir / Madam,

Having obtained planning consent at the above address, our clients have requested we ask if a conifer tree on their front boundary can be removed. It is both undermining two trees either side and is causing damage to the front wall, as well as cutting light and stopping natural growth under and around its immediate vicinity.

Please see attached site location plan indicating position of tree along with four photos indicating the tree, its relationship to the next door neighbours established tree with a TPO and how it is damaging the existing garden wall.

Please advise at your earliest convenience if we can provide any further information or indeed if we will be allowed to remove it and make good the existing wall?

Thank you for your attention to this enquiry.

Yours faithfully,

Nick Timson.
