

EXISTING FRONT ELEVATION 1:50

The annex No. 1C is an empty space open to the rear behind a much altered brick facade, with a contemporary light industrial roof. The West wall of the villa appears to have been reinforced to receive such roofing, and the front elevation of No 1 C suffered the addition of 6 brick courses at the top probably to increase the height of the new roof.

PROPOSED FRONT ELEVATION 1:50

The demolition of annex No. 1C, which, due to its extensive modification contains little or no historically significant fabric, will improve the context and setting of No.1 Hawley Road.

Note:

Please note that information used to produce these drawings is based on measured survey supplied by others; Heritage Architecture can not be held responsible for any inaccuracies that may exist; Please do not scale drawings; all dimensions should be verified on site.
