## Lighting Load Schedule I King's Cross Southern Facade Canopy South East Stair Enclosure ENG-BRF-OAP-SSQ-CBSE-004

SF Document Ref : 3011\_04\_002 rev02 Date : 27/07/11

2 of 2

| Luminaire ref              | Channel ref | Description   | QTY | Lamp Type | Circuit Load | Control type                    | Total Load<br>(W) |  |  |
|----------------------------|-------------|---|-----|-----------|--------------|---------------------------------|-------------------|--|--|
| Southern Façade Canopy     |             |   |     |           |              |                                 |                   |  |  |
| L11                        | 55          | IP65 linear LED luminaire complete with diffuser and integral gear. | 54  | LED       | 40           | Switched<br>timeclock/photocell | 2160              |  |  |
| South East Stair Enclosure |             |   |     |           |              |                                 |                   |  |  |
| L12                        | 56          | IP65 linear LED luminaire complete with diffuser and integral gear. | 24  | LED       | 40           | Switched<br>timeclock/photocell | 960               |  |  |

<sup>\*</sup>Note: For Luminaire information see specification schedule

| Lamp Ref | Description |  | Total lighting load (W) | 3120 |
|----------|-------------|--|-------------------------|------|
| LED      | LED         |  |                         |      |

Refer to Studio Fractal documentation when reading this schedule

Additional Cost Notes.

- 1. Contractor to confirm wattages with manufacturers prior to order
- 2. Contractor / Electrical engineers to confirm dimming / control gear protocol
