

Strada

4 South Grove, Highgate, London. N6 6BS

Individually built up acrylic letters on aluminium fascia with external illumination.

Design Access Statement

Strada is an established restaurant situated within the local community on South Grove (Grade II Listing) offering Italian food and drink. The design of the signage is simple and blends itself to the building. Individual built up letters with subtle illumination keeps it clean looking and the use of acrylic material and stainless steel fixings also keeps the sign and building in good condition with no chance to rust or marking of the building.

It is proposed to fit the new signage to the front elevation as drawing supplied. This will improve and raise the standard to that which is appropriate to the new brand and in keeping with a conservation area.

Kind Regards
