

Item ref	Species	Age	Vitality	BS Cat	BS Cat	Clr	Height	DBH	N	S	E	W	Notes	Mgt reco's
Item ref	The identification reference number which is either present on the tree tag, or a plan, or both, for unique surveyed items.													
Species	The common name (and botanical name where appropriate) of the tree.													
Age	The stage of life cycle; Y=Young, EM=Early Mature, M=Mature or LM=Late Mature.													
Vitality	The general physiological condition of the tree; Dead, Poor or Normal.													
BS Cat	The retention category referring to useful contribution in years; R=<10yrs, C=10-20yrs, B=20-40yrs or A=>40yrs.													
BS Cat	The retention category referring to the type of amenity; 1=Individual, 2=Landscape/Group or 3=Biodiversity/Cultural.													
Clr	The height of ground clearance in metres.													
Height	The height of the tree in metres.													
DBH	The stem diameter in milli-metres at breast height (1.5m for single stemmed trees or 0.0m for multi-stemmed trees).													
NSEW	The extent of the canopy in the principal compass points in metres; N=North, S=South, E=East or W=West.													
Notes	Notes and general comments on the structural condition of the tree, or its environment.													
Mgt reco's	Preliminary management recommendations. Note; these do *not* refer to a scheme/development/layout.
