UKCMRI

December 2009

Dear Resident,

The United Kingdom Centre for Medical Research and Innovation (UKCMRI)

Please find enclosed some information about the UK Centre for Medical Research and Innovation (UKCMRI), the new medical research centre proposed for the site at Brill Place to the south of the Purchase Street Open Space and to the east of Ossulston Street.

The centre will bring together scientists from four leading research organisations to develop new treatments for illnesses that affect us all, such as cancers, heart disease and stroke. We aim to put in a planning application to Camden Council next Spring.

UKCMRI will bring many benefits to the local community, including new jobs, facilities to be shared with local people, a boost for local businesses, and the chance for schools, families and community organisations to engage with our vital work. We aim to be an active and responsible member of St Pancras and Somers Town.

Before submitting our plans, we want to consult local people on both the building process and on our plans for bringing benefits to the local area. As part of this, we would like to invite you to a public consultation and exhibition so you can find out more about our plans.

The exhibition and consultation will take place at the **Coopers Lane Community Hall, Hampden Close, off Purchase Street, NW1 1HL** on:

Thursday 10th December, 3pm - 7pm
Friday 11th December, 4pm - 7pm
Saturday 12th December, 10am - 2pm

You are welcome to drop in during these times to see the latest designs for the new building and get other information about UKCMRI, as well as ask members of the team any questions you may have. Most importantly, we will be asking for your thoughts and feedback.

We look forward to meeting you during the consultation phase of this exciting project. If you would like us to keep you informed about our plans, or if you cannot attend on the dates above and would like to know more, please email info@ukcmri.ac.uk. You can also give us your views by writing to UKCMRI, PO Box 64746, London, NW1W 8HB.

If you would like this letter in another language, please contact info@ukcmri.ac.uk

Dear *(Insert name)*

UKCMRI Presentation and Exhibition

The United Kingdom Centre for Medical Research and Innovation (UKCMRI) is at an exciting stage in its development. As you may know, the Centre will bring together scientists from four leading research organisations to develop new treatments for illnesses such as cancer, heart disease and stroke - all from our proposed site in Somers Town.

We have now released the first details of our science vision and designs for the building, and are currently presenting these to the local community. We intend to submit a planning application in early Summer 2010.

As a key stakeholder, we would like you to join us for a presentation and exhibition at the Wellcome Trust on **25 January**. This will be an opportunity to engage with senior members of the UKCMRI team, discuss the research we intend to conduct and view our design proposals - as well as a chance to network with other important stakeholders.

The event details are as follows:

Time & Date: 6-8pm, 25 January 2010

Location: Wellcome Trust, Gibbs Building, 215 Euston Road, London, NW1 2BE.

(Refreshments will be provided.)

We would be delighted if you could join us at this event so we can tell you more about the project and hear your thoughts on our plans.

For further information and to RSVP, please contact info@ukcmri.ac.uk or call us on 020 7395 7151

We look forward to seeing you then.

Yours sincerely,

John Cooper

UKCMRI COO and Interim CEO

United Kingdom Centre for Medical Research and Innovation (UKCMRI) Community Consultation, St Pancras and Somers Town

UKCMRI aims to discover and develop new treatments to fight the illnesses which affect all families, such as cancers, heart disease, flu and stroke. The proposed site for UKCMRI is at Brill Place, to the south of Purchase Street, to the east of Ossulston Street in St Pancras and Somers Town.

Public exhibitions

Public exhibitions will take place at the: **Coopers Lane Tenants and Residents Association Hall, Coopers Lane, NW1 1HA** on:

- Thursday 10 Dec, 3pm-7pm
- Friday 11 Dec, 4pm-7pm
- Saturday 12 Dec, 10am-2pm

We welcome all residents and local businesses to the exhibition and look forward to your feedback.

For more information please email info@ukcmri.ac.uk or write to UKCMRI, PO Box 64746, London, NW1W 8HB.

22 March 2010

Dear

The United Kingdom Centre for Medical Research and Innovation (UKCMRI) – further community exhibitions and consultation

Xarunta Boqortooyada Midowday ee Cilmi Baarista Caafimaadka iyo Cusbooneysiinta

ইউনাইটেড কিংডম সেন্টার ফর মেডিক্যাল রিসার্চ অ্যান্ড ইনোভেশন

As you may know, UKCMRI is a consortium of Cancer Research UK, the Medical Research Council, UCL (University College London) and the Wellcome Trust. We aim to work together to develop new treatments for illnesses such as cancer, heart disease, stroke, flu, and TB that affect families in this community and around the world.

Last month, we informed residents who came to our three day community exhibition in December that we were planning a further series of roving exhibitions in the St Pancras and Somers Town locality. I am pleased to be able to take this opportunity to confirm those details.

We hope local residents will be able to drop in and provide us with feedback to inform the project and have written widely to residents and businesses in Somers Town to promote these exhibitions. However, we also hope that you can inform your members as much as possible that these events are taking place. We are also happy to meet with you at another time if you would like to hold a briefing specifically with your community group. The road show events take place at:

- **St Pancras Library**, Argyle Street WC1H 8NN – Monday 8th March, 2pm – 5pm
- **Surma Centre**, 1 Robert Street NW1 3JU – Wednesday 10th March, 2:30pm – 5pm
- **Somers Town Community Centre**, 150 Ossulston Street NW1 1EE – Saturday 13th March, 9am-1pm
- **St Pancras Community Association**, 30 Camden Street NW1 0LG – Wednesday 17th March 2:30pm – 5pm

I very much hope that you will be able to join us at one of these events, and encourage your members to visit us to get more information and share their thoughts and views. For more information, or to arrange a meeting or briefing for your group please contact us at info@ukcmri.ac.uk or on 0800 028 6731.

Yours faithfully,

John Cooper
UKCMRI Chief Operating Officer and Interim Chief Executive
