**Attention: Vanessa Leddra, Senior Planner**

Dear Ms Leddra,

**Town and Country Planning Act (as amended)**  
**Carriageway adjacent to Cavendish College on Alfred Place, WC1, within**  
**the London Borough of Camden**  
**Planning Portal reference: PP-01107564**

In the context of the Mayor's transport policy, Transport for London (TfL) has been tasked with implementing a Cycle Hire Scheme in London. The target date for the scheme coming into use is summer 2010, subject to the grant of the necessary consents.

TfL has consulted extensively with the Royal Parks and the London boroughs hosting the scheme to select appropriate sites, and shape the design of the docking stations. TfL has also worked closely with English Heritage and Design for London to develop a design appropriate for London. Public notification and consultation through forums and attendance at Community Councils has also commenced.

This planning application is for the installation of a docking station which comprises; a terminal and docking points. Users will hire a bicycle from the docking station, use it as desired, and return it to either the same, or another, docking station. The terminal is required to secure and release the bicycles, for payment of subscription fees and user tariffs and to provide information about the area including the location of other docking stations and way-finding mapping (which has deemed advertising consent).

**MAYOR OF LONDON**

The application consists of:

I look forward to receiving confirmation that the application is valid in due course. Given the nature of the application and the comprehensive pre-application discussions, we would hope that you will be able to determine this application within the statutory 8 week period.
