To whom it may concern

Please could you take into consideration the reasons for the application of extension to the above property.

The above two bedroom property has been our family home for nearly 20 years. We wish to remain here and within the Camden community in which we are actively very much part of as a family. Our home due to having two children aged nine and eight of opposite gender has become inadequate in bedroom space. Moving to a three bedroom property would require moving to an outside borough in which we are reluctant to have to do as we have no desire to move away from Camden other than for a much needed bedroom.

They are many positive aspects to why we value living within the Camden area and feel that most of these would be lost within a move elsewhere.

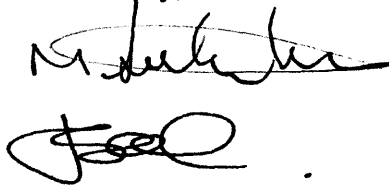

One of my concerns is that I am aware that moving my children outside of the borough will not guarantee the immediate entry into a new school. At the ages of eight and nine I believe the disruption would not only have a negative effect in what I believe to be a key learning stage within school but also be detrimental to the balance of our family routine and structure.

As a mum returning back to work I value the boroughs active support in providing facilities & activities for children within the community.

I also work voluntary within my community in which I would be greatly disappointed to resign due to time commuting.

I would appreciate if you could consider the mentioned reason and concerns to the above.

Yours faithfully,
