APPLICATION TO CARRY OUT TREE WORK

Back garden

1/ *Platanus hispanicas*; (Plane) Condition of the tree is poor it has a large scar that extends up for about a metre. It is a relatively small tree due to have being continuous pollarding at a height of @ metres. Due to its position and condition they would like to remove it and replace with another tree possibly a birch

As far as I am aware this does not have a TPO on it

C. Howard

14/6 2010/3416/T.
