

EAST ELEVATION - as proposed

1. EXTERNAL WALLS

existing walls in facing brickwork shall be retained and be inspected, repaired and re-pointed as may be necessary.

All external walls shall be lined internally with Gyprock Thermal boards to attain a U-value of 0.30 W/m2K

2. WINDOWS & DOORS

All new windows and entrance doors shall be in good quality timber, double glazed to current Building Regulations standards.

3. CEILINGS / FLOORS

The separating floors and ceilings shall be upgraded internally to attaining requisite resistance to fire and sound.

RECEIVED
23 MAR 2010

Rev A-march10- features and notes added for compliance with Lifetime Homes Standards - the 16 Criteria. Canopies over entrances - reduced window cill heights
