RECEIVED
21 JAN 2010

Dear Sirs,

Thank you for your letter of 8th January informing us that our application was incomplete. A copy of your letter and schedule is attached as requested (the Word Document above).

There are no new or replacement air conditioning units that are the subject of this application. Reference to them has been removed from the drawings attached to this email. We hope the replacement drawings attached cover all the points you have made in the schedule to your letter.

We also attach a revised section 19 of the application form. The footprint of the new stair enclosure is 17.5 sq m. At ground level it was always in B1 use. Being a stair, it does not really enclose any new usable space at first floor level but we have nevertheless included it as an addition at first level as we can see that technically it does enclose GEA.

Please let us know if this information is acceptable and whether you wish to view the site.

Regards

Richard Hillebron
