Note

Dimensions critical to proposed building works must be checked on site before construction commences, as certain assumptions may have been made due to both lack of accessibility and anomalies in the existing building (see more specific note below).

THIS IS A COMPUTER MODELLED DRAWING
"LAYERS" TURNED OFF OR FROZEN MAY NOT APPEAR.

Building construction

All internal wall lines shown are the evident existing faces of walls, whether they are cladding, plaster, timber or brick. Where partitions are obvious, they are in the layer ".....partition".

Due note must be taken that walls may be uneven, both vertically and horizontally. This fact, coupled with possible limitations on access due to existing furniture, storage, decorations etc., may mean that generalisations and assumptions have had to be made in the production of this drawing.
