JUSTIFICATION

It is our clients wish to enjoy the amenity that this conservatory would provide and seeks to achieve this with a structure that has a minimal physical impact on the elevation it connects to and the surrounding area.

The conservatory will be erected on low walls to match the existing, with the fenestration details and the conservatory massing being produced in such a way as to harmonise with the existing building

The style of the conservatory has been designed to cause little disruption to the original fabric of this dwelling

We consider the proposed conservatory has sufficient integrity to contribute to the amenity of the dwelling without detracting away from the beauty and character or conflicting visually or technically to the existing property
