Dear Tom

Re: Tree work at Davis Cottage
Torriano Cottages NW5 2TA.

Thank you for coming to inspect
the tinus prunus in my front
garden hedge last week.

My neighbours and I have
been watching the tree anxiously
whenever the wind blows, for
over a year, so I was relieved
when you confirmed that it was
in a dangerous state.

That being the case, you have
recommended the following course
of action: the removal of the
entire left hand stem and a
light reduction of 10% to the
other three stems. This work
may be carried out without
delay. Accordingly I have
asked Gareth Wellbourn
of Burnwell Trees (mobile:
07808 728094)
to do the work on Thursday,
Feb 11th.

Again many thanks for
your advice.

Yours.

Catherine Pearson
