Proposed second floor layout plan. Scale 1:50

Site location plan. Scale 1:1250

The builder/contractor is to check the plan and all dimensions on site at quotation stage and before commencement of work. Any errors, omissions or design changes required should be reported immediately to enable amended plans to be submitted to the Local Authority. All work shown on the plans, or any deviations from the design or materials specified, should comply with current building regulations, planning requirements, British Standards and Codes of Practice. The client should check any matters regarding title of the land and that work shown on the plan does not contravene or affect covenants or encroach on any boundaries, unless agreed. Procedures relating to The Party Wall Act are to be followed where appropriate. Works that commence before local authority approval has been obtained are under-taken solely at the owners/builders risk.
