Proposed activities: Alternate Health Clinic to assist in taking care of and improving the health of the local community by offering safe, natural therapies as an alternative or complement to orthodox medical treatments. Health care practitioners will attend to patients on the premises and will also go to local community centres to provide information on how to live a healthier and happier lifestyle. I am particularly interested in helping the elderly and will organise a low-cost clinic one day a week for those with financial difficulty.

Health care practitioners will include a naturopath, nutritionist, herbalist, osteopath and psychotherapist.

Proposed hours of operation: Weekdays 9h00 to 18h00
Saturdays 10h00 to 18h00

Number of clients: 20 to 25 clients a day when the clinic is busy

Parking: 5 parking places are provided on the site for patients who have cars and as a result no traffic or parking congestion will be caused by patients attending the clinic.

Access to clinic: There is also easy access to the clinic on foot, by bus and tube; the clinic is on the ground floor with easy, direct access for pedestrians and there is a bus stop in front of the clinic with buses passing regularly from West Hampstead, Finchley Road and Golders Green Tube stations.
