

**Access Statement in Support of**  
**Application Reference 2009/3994**

This Access Statement is an extension to that document already issued with the original application for the installation of new railings on ramp and wall between upper and lower levels of garden annexe located at corner of Boades Mews and Streatley Place for New End Primary School, Streatley Place, London NW3 1HU.

In addition to the details already given, we would add that the railing design is simple and functional and compliments the garden and surrounding environment.
