Site Description

King's Cross Mainline Railway Station, Euston Road. Listed Grade I

Railway terminus. 1850-52. By Lewis Cubitt (architect), and Sir William and Joseph Cubitt (engineers). Yellow stock brick. 2 train sheds (originally 1 for arrivals, the other for departure) closed by monumental plain brick screen of 2 glazed semicircular openings, framed with recessed arches (echoing the train sheds behind) with central and flanking towers; ground storey obscured by late C20 additions. Central tower with rectangular clock turret with pyramidal roof, eaves cornice and weather vane. To the west 3 storey 3 window office block with booking hall and service rooms at rear; 1st floor with thin, debased Venetian windows, cornice at 2nd floor level, 2nd floor segmental-arched sashes (flanking bays tripartite), cornice. On east side, an extension with archway to the cab drive (now bricked up); rusticated surround to arch and quoins; cornice above which 3 tripartite sashes and parapet.

Relevant History

LBC 2007/2611/L granted 31/08/2007 for :- Alterations to and refurbishment of main train shed and suburban train shed roof to include installation of photovoltaics.

2009/4472/L granted 03/11/2009 for the Discharge of Condition 4 iv) Details of Temporary works (LBC 2007/2611/L granted 31/08/2007))

2006/3394/L and 2006/3387/P Consent granted 9th November 2006 for :-
Alterations, extensions, refurbishment works to King's Cross Station including construction of Western Concourse to abut western range and the Great Northern Hotel; alterations, refurbishment and structural upgrading of the Western Range including reinstatement of bomb gap facade; construction of platform Y with installation of associated catenaries; demolition and replacement of Handyside footbridge; refurbishment of original booking hall; construction of canopies to south elevation of main train shed and taxi waiting areas; construction of enclosure to London Underground southeast stairs; alterations to platforms 1 and 5-8; demolition of southern end of suburban train shed and adjoining canopy; demolition of engineer's bothy building and major portion of cab road to York Way and related walls and structures; permanent removal of Great Northern Hotel porch, railings and flagpole and porte cochere and northern canopy to mainline station western range; various demolitions in the western range from basement to 3rd floor levels and roof of former booking office; and other alterations, operations and extensions in connection with the provision of new passenger and operational facilities.

Assessment

This application concerns the submission of details relating to Condition 8 (LBC 2007/2611/L) which requires states - No lights, meter boxes, flues, vents or pipes, and no telecommunications equipment, alarm boxes etc shall be fixed or installed on the external face of the buildings, without the prior approval in writing of the Council.

This submission is for the installation of five free standing storage boxes along the central valley between the two main train shed barrel roofs. The boxes are to house spare sheets glass in advance of future roof maintenance and glass replacement. The justification for their introduction is the cost and difficulty in raising such large sheets of glazing in the future when the temporary access deck and scaffolding has been removed.

The boxes are to be attached to the late 20th century timber boarding along the valley directly above the central spin wall of the station and will not impact on the historic fabric of the building.

There are no objections to the proposed storage boxes and it is therefore recommended that this application is approved.
