Subject: 09043 Mornington Leisure Centre - Amended Louvre positions
Attachments: 021b.pdf

Dear Tania,

Thanks for taking my call this morning and having a chat about the Underhill Elevation louvres, following Brian's email of 12 November.

Please find attached revised drawing 021B showing the amended louvre positions to the 2nd and 3rd bay of Underhill Street.

Further to our conversation, I would like to clarify that the height of the grilles needs to be above the internal roof line, the apex being at Underhill Street. The internal ceiling line is 3m, which is above the rendered/white painted zone on Underhill Street. In addition there is the ceiling zone, the steel beam section along with roof makeup. We will aim to keep the louvres as low as practicably possible.

I hope all this helps and look forward to your reply in due course.

Many thanks
Kind regards

Nabeela Ameen
