Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policies B1 and B7 of the London Borough of Camden Replacement Unitary Development Plan 2006.

- 3 Full details in respect of the green roof and green wall as indicated on the approved plans shall be submitted to and approved by the local planning authority before the development commences. The buildings shall not be occupied until the approved details have been implemented and these works shall be permanently retained and maintained thereafter.

Reason: In order to ensure the development undertakes reasonable measures to take account of biodiversity and the water environment in accordance with policies N5 and SD9B of the London Borough of Camden Replacement Unitary Development Plan 2006.

- 4 All trees on the site, or parts of trees growing from adjoining sites, unless shown on the permitted drawings as being removed, shall be retained and protected from damage to the satisfaction of the Council. Details shall be submitted to and approved by the Council before works commence on site to demonstrate how trees on adjoining sites to be retained shall be protected during construction work and how the patio is to be constructed: such details shall follow guidelines and standards set out in BS5837:2005 "Trees in Relation to Construction".

Reason: To ensure that the Council may be satisfied that the development will not have an adverse effect on existing trees and in order to maintain the character and amenities of the area in accordance with the requirements of policy N8 of the London Borough of Camden Replacement Unitary Development Plan 2006.
