Dear Sir/Ms

Request for Tree Work in Conservation Area

I would like permission to carry out a small amount of tree work here. We are freeholders and have sole use of the rear garden.

1. Reduce bay tree on south boundary of rear garden about 50%
2. Reduce Magnolia soulangeana on south boundary of front garden about 50%.

The bay tree is multi-stem, very untidy, about 35 ft tall and shades the ground floor maisonette. The magnolia is about 15 ft tall, very leggy and untidy.

Yours sincerely

Walter Rauter
